Re: Divisional Patent Application
OF 08/904,175 - SPERTELL

Dear Ray:

Further to our several recent letters and telephone discussions, I have filed the divisional patent application. The application was filed on August 14, 2000. I am enclosing a copy of the application, as filed, together with a copy of a date-stamped receipt card as evidence of the filing. I am in receipt of your telefax copy of your letter of August 9, 2000 and the accompanying executed Declaration. I am also in receipt of the original letter. I have filed the executed Declaration with the application.

I have entered this case on my docket. We will need to prepare, and file, an Information Disclosure Statement by November 14, 2000. At that time we should provide the Examiner with copies of the various patents cited in the patent which I understand will issue on August 15, 2000. Where it is a divisional and not a continuation, the file of the issuing patents is separate from the file of the newly-filed divisional. We cannot assume that the Examiner will automatically have access to the materials in the file of the issuing patent. He should order the file, but we cannot assume that he will. Accordingly, please send me a copy of the patent after it issues. I will then get copies of the cited patents. If there are cited publications, we may have to try to get those from Dr. Spertell. We will deal with that when the need arises.

I will keep you advised of the status of the application. Please give me a call with any questions.

Very truly yours,
